

Administrative Law & Public Procurement – Legal Security and Strategic Advice

Executive Summary

At Fernando Messias Lawyers, we provide specialised legal advisory in administrative law, public procurement, and administrative litigation. Our team ensures compliance, efficiency, and innovative solutions for both public and private sector clients.

Key Trends & Current Challenges

- Increasing complexity of public procurement procedures and EU regulations.
- Rising number of administrative litigation cases involving public contracts.
- Expanding role of arbitration in resolving administrative disputes.
- Growing demand for regulatory compliance in environmental, fiscal, and urban planning matters.

Practical Insights for Clients

- Careful preparation of proposals reduces risks in procurement processes.
- Public entities benefit from legal support in drafting and structuring contracts.
- Quick and efficient handling of administrative offences protects clients from excessive sanctions.
- Arbitration offers a fast and effective alternative to traditional administrative litigation.

Case Studies (Illustrative Examples)

- Advising a public entity on the legal structuring of a major procurement procedure.
- Representing a private company in a dispute concerning the execution of a public contract.
- Supporting a client in arbitration involving environmental regulatory compliance.

How We Can Help

- Advisory on pre-contractual and contractual procedures.
- Legal support to adjudicating entities in public procurement.
- Representation in administrative litigation and pre-litigation.
- Defence in administrative offence proceedings.
- Representation in administrative arbitration proceedings.
